Get creative !

We made some Serious Board Games to integrate into our lessons.

In histology, we have three different kinds of self- made memory- games: two with histological images, one with cytological pictures.

Student can use these within the lesson to revise while also having fun.

For hematology we edited a version of 'Labyrinth' to include blood cells and for microbiology there is a card game available. These enhance interactions of students with one another while also having a learning effect.

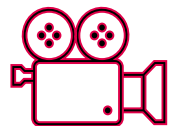

Test your knowledge !

**What if you want to
WORK
abroad in the EMR?**

MLT is a regulated profession

(BE and DE, not NL)

Database content

Each country is responsible for updating information, on its regulated professions, competent authorities and statistics.

The Commission cannot be held responsible for the accuracy of the information. However, if errors are brought to its attention, the Commission undertakes to correct them as far as possible.

Professionals Moving Abroad (Establishment)

Statistics on establishment show the number of decisions taken for professionals qualified in one Member State who apply for recognition in another country within the EU Member States, EEA countries and Switzerland to practise there on a permanent basis. Statistics cover the number and types of decisions taken by host countries.

Types of Available Statistics

[Overall Statistics](#)[Geography of Mobility](#)[Ranking the Most Mobile Professions](#)

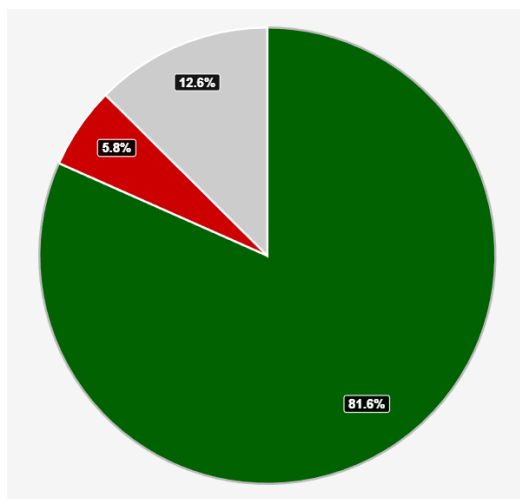

Statistics by the Generic Name of Profession

The statistics grouped by **generic profession** (example: "tourist guide") show the number of decisions taken in host countries. First select the relevant generic profession then click on the establishment/ statistics tab.
